

Common Human Resource Information Standards

Member Cumulative Sea Duty Quantity "F&A ES Only"

Member Cumulative Sea Duty Quantity is the constructed total quantity of time (years, months, days) in which a DoD Military Service member has accumulated for periods of duty at sea.

Permitted Values

NA

Structural Business Rules

A DoD Military Service member may have only one Member Cumulative Sea Duty Quantity at a time.

Quantity of Days must be represented by total number of years, total number of months, and total number of days.

Member Cumulative Sea Duty Quantity must be derived by summing all periods of sea duty assignments (Member Sea Duty Start Dates and Member Sea Duty Stop Dates).

A quantity must be a numeric value.
